

DISA Overview

2 May 2001

CAPT Gregory J. Pitman
Assistant Deputy Director,
Strategic Plans and Policy
Pitmang@ncr.disa.mil

DISA is a Combat Support Agency

Information Assurance: Securing the DII

Must address Information Assurance at the DII Level -
Protect, Detect, React and Recover

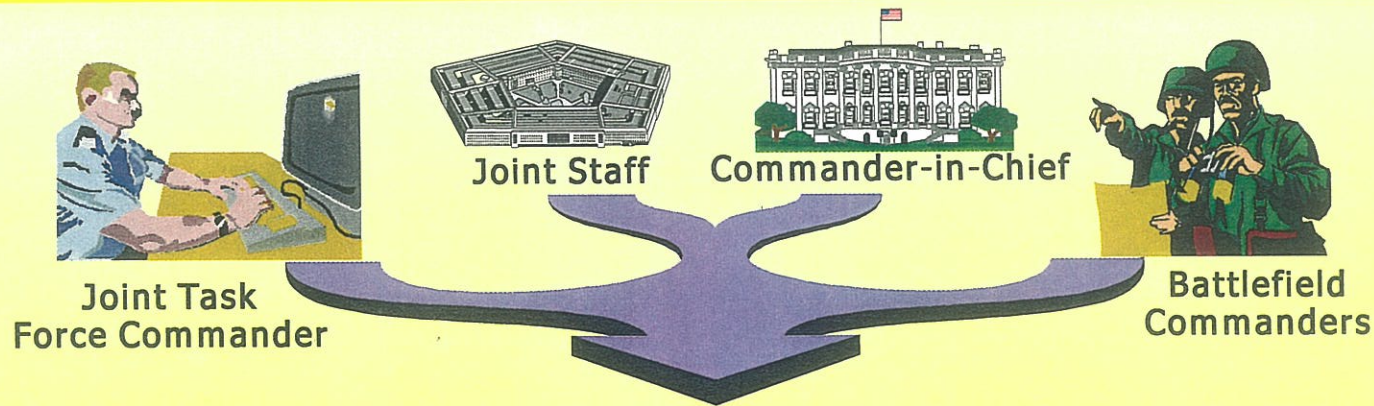

Global Command & Control System (GCCS)

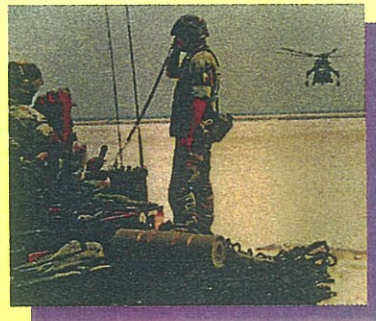

GCCS significantly improves Warfighter's ability to manage and execute crisis & contingency operations

- Fused, real-time, true picture of the battlespace
- Info to the warfighter when, where, & how it is needed

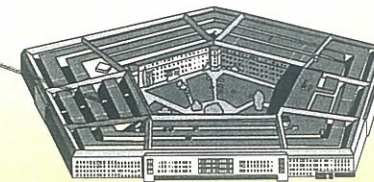

- Shared Tactical Picture
- Extends commander's eyes & ears to the battlefield

- Planning, analysis, and execution from one computer
- Distributed collaborative planning, worldwide

DISA's Imperative: Warfighter Support

DISA's Strategic Perspective

- Stems from the National Security Vision
- Strongly supports both revolutions

24x7 Global Presence to Support Warfighter

Information-Based Capability is the Future
